◆ Partial result: birth-chart interpretation is unavailable

We cannot support a personal chart reading with the evidence available for this request. No Moon sign, birth star, ascendant or dated period is guessed. If your birth time is unknown, use a birth record if available; do not invent a time to unlock a report.

◆ Turn the career question into a testable choice

Your question: "Planning a career change while birth time is unknown".

A traditional chart theme is not an offer, promotion or proof of suitability. Separate what you want from what the actual role requires.

- ◆ Compare your present role and the proposed option by duties, hours, pay and required skills.
- ◆ Support each claimed strength with a completed task, result or feedback example.
- ◆ Identify the missing information that could change your decision; verify it with the employer or professional body.
- ◆ NEXT STEP - Choose one low-risk action: an informational conversation, a skills exercise or a revised application. Review the outcome after seven days.
